Date: _____
Registration Number: _____
Serial Number: _____
Total Time: _____

1. Description

- A. Inspection Document MB gives a list of item(s), which are completed at 5000 landings and every 1000 landings thereafter, up to 10,000 landings. Replace at 10,000 landings (Chapter 4 requirement - No grace period).
- B. Inspection items are given in the sequence of the zone in which the inspection is completed. A description of the inspection, as well as the Item Code Number are supplied for cross-reference to section 5-10-01. Frequently, tasks give more information about each inspection. These tasks are found in the individual chapters of this manual.
- C. The right portion of each page gives space for the mechanic's and inspector's initials and remarks. You can use copies of these pages as a checklist while you complete the tasks in this Inspection Document.

2. General Inspection Criteria

- A. As you complete each of the inspection tasks in this Inspection Document, examine the adjacent area while access is available to find conditions that need more maintenance.
- B. If it is necessary to replace/adjust a component or system during a task, complete any required return to service procedures for that system before the remaining steps of the task are completed.
- C. Inspection Kits are available for some Inspection Documents. They supply consumable materials used to complete the inspection item(s) given for the interval. Refer to the Model 208 Illustrated Parts Catalog, Introduction, Service Kit List to find applicable part numbers.
