

**INSPECTION DOCUMENT MG**

Date: \_\_\_\_\_  
 Registration Number: \_\_\_\_\_  
 Serial Number: \_\_\_\_\_  
 Total Time: \_\_\_\_\_

**1. Description**

- A. Inspection Document MG gives a list of item(s), which are completed at 5000 hours and every 1200 hours thereafter (Chapter 4 requirement - No grace period). NOTE: If all four of the Fuselage to Strut Attach Fittings are replaced, this inspection will be due at 5,000 Hours after replacement. NOTE: If any combination of one to three of the Fuselage Strut Attach Fittings are replaced, the inspection interval remains at 1,200 Hours.
- B. Inspection items are given in the sequence of the zone in which the inspection is completed. A description of the inspection, as well as the Item Code Number are supplied for cross-reference to section 5-10-01. Frequently, tasks give more information about each inspection. These tasks are found in the individual chapters of this manual.
- C. The right portion of each page gives space for the mechanic's and inspector's initials and remarks. You can use copies of these pages as a checklist while you complete the tasks in this Inspection Document.

**2. General Inspection Criteria**

- A. As you complete each of the inspection tasks in this Inspection Document, examine the adjacent area while access is available to find conditions that need more maintenance.
- B. If it is necessary to replace/adjust a component or system during a task, complete any required return to service procedures for that system before the remaining steps of the task are completed.
- C. Inspection Kits are available for some Inspection Documents. They supply consumable materials used to complete the inspection item(s) given for the interval. Refer to the Model 208 Illustrated Parts Catalog, Introduction, Service Kit List to find applicable part numbers.
