

OIL - GENERAL

1. Scope

- A. This chapter describes those units and components, external to the engine, concerned with storing and delivering lubricating oil to and from the engine.

2. Tools, Equipment and Materials

NOTE: Equivalent substitutes may be used for the following items:

NAME	NUMBER	MANUFACTURER	USE
Sealant	RTV-106 (Red)	General Electric Company Silicone Products Dept. Mechanicville Rd. Waterford, NY 12188	To aid in oil cooler related sealing.

3. Definition

- A. This chapter is divided into sections to aid maintenance personnel in locating information. Consulting the Table of Contents will further assist in locating a particular subject. A brief definition of the sections incorporated in this chapter is as follows:
- (1) The section on distribution provides information on those components and lines used to distribute oil from external sources.
 - (2) The section on indicating provides information on those components and systems used to indicate various parameters of the oil system.
